MEMORANDUM FOR: Chief, Policy and Support Group/CSD
Office of Communications

FROM:
Executive Officer, Office of Security

SUBJECT: National Policy for Granting Access to U.S.
Classified Cryptographic Information

1. The Office of Security has reviewed the subject proposed policy statement and has only one suggested change, that the wording regarding the polygraph requirement be amended to permit broader application. Broader language is extremely important as it allows continuance of current CIA practice and it provides for other agencies to apply more stringent polygraph screening in the future if they deem it advisable.

2. It is strongly recommended that paragraph 3.g. be changed to read:

g. Consents to the administration of aperiodic counterintelligence-scope polygraph examinations which include, as a minimum, questions concerning espionage, sabotage, and unauthorized giving or selling of classified information to, or unauthorized contacts with, representatives of foreign governments or agencies but which may, at the discretion of the agency head and as permitted by applicable law and regulation, include additional counterintelligence questions pertaining to issues such as the purposeful or inadvertent mishandling or unauthorized disclosure of classified information.

3. We see no need to change paragraph 6.b., contingent upon the foregoing change to 1.b. There appear to be weaknesses in the nondisclosure agreements accompanying the policy statement. I have referred this matter to Chief, Administrative Law Division, OGC. You may wish to contact ALD/OGC, in this regard.
